Neoen and BNRG win 55MWp of solar projects in the Republic of Ireland

Neoen (ISIN: FR0011675362, Ticker: NEOEN), one of the world's leading and fastest-growing producers of exclusively renewable energy, has won 55 MWp in the Republic of Ireland's first governmental tender for solar farms.

Neoen and partner BNRG, a Dublin based solar company, have been declared provisionally successful in their bid, winning over 55 MWp. The formal results are due to be announced in September. The capacity will be spread across three projects in the townlands of Hilltown, Millvale and Hortland. The plants are scheduled to be commissioned by the second half of 2021.

This successful bid a year after the purchase of 53.4 MW of wind farms underpins Neoen's ambitions for the Irish market.

Mathieu Legouix, Neoen's Ireland country director said: *"We are pleased to be among the winners of this first solar tender in Ireland. Such success demonstrates once again our ability to win bids with high local involvement. The prospect of regular tenders between now and 2025 is a great motivator to invest in the Irish market."*

Xavier Barbaro, Neoen's Chairman and Chief Executive Officer added: *"This success confirms our position in the solar market and our ability to combine reliable technology with competitive pricing. Ireland has great potential for development in renewables and we are proud to contribute via solar and wind power."*

About Neoen

Neoen is one of the world's leading and fastest growing independent producers of exclusively renewable energy. With a capacity of more than 3 GW in operation or under construction, Neoen is a high-growth company. Neoen is notably active in Argentina, Australia, El Salvador, Finland, France, Ireland, Jamaica, Mexico, Mozambique, Portugal and Zambia. In particular, Neoen operates France's most powerful solar PV farm (300 MWp) in Cestas, and the world's largest lithium-ion power reserve (150 MW/193.5 MWh storage capacity) in Hornsdale, Australia. Neoen is targeting at least 5 GW capacity in operation or under construction by end of 2021. Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris.

About BNRG

Headquartered in Dublin with operations in the US, the United Kingdom, Europe and Australia, BNRG is a pioneering developer and operator of solar projects led by a team of individuals united by a passion to change the world through solar technology and investment. Since 2007 we've worked alongside our development, technology and investment partners to finance, build, manage and own solar farms that today produce more than 150,000 MWh of clean electricity, with more than 1.5 GW of active projects in the development pipeline. It's not just our early market position in solar that's fueled our success, it's also our flexible approach: we respond in real-time to market and industry changes, and we focus on building lasting and trusted relationships. Our partnerships are what help us deliver on our promises, including minimal disruption for communities and stable returns for our investors.
