

Project Manager - Development

About Neoen

Neoen is one of the world's leading independent producers of exclusively renewable energy. Neoen has 5.4 GW of solar, wind and storage capacity in operation or under construction in Australia, France, Finland, Mexico, El Salvador, Argentina, Ireland, Portugal, Jamaica, Mozambique, and Zambia. The company is also active in Croatia, Ecuador, Italy, Sweden, and the USA. Neoen's flagship assets include France's most powerful solar farm (300 MWp) in Cestas, and the world's largest lithium-ion power reserve (150 MW / 193.5 MWh storage capacity) in Hornsdale, Australia.

A player in the fight against global warming and the energy transition, Neoen's mission is to design and implement the means to produce the most competitive renewable electricity, sustainably and on a large scale. As a responsible company whose long-term vision is reflected in a strong and sustainable growth strategy, Neoen is targeting more than 10 GW capacity in operation or under construction by end of 2025.

Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris.

Role purpose

Our **Italian Business Development Department** is looking for a **Project Manager**. Reporting to the local managers, you will be in charge of the development of a part of the portfolio of wind, solar energy and battery storage projects, from identifying the site to securing the land and the permits until construction starts.

The main tasks include:

- Identification of new greenfield opportunities for solar, wind and battery storage projects
- Development of several projects, securing land lease agreements, consultation with various local stakeholders; control the development of projects in all the aspects
- Capacity to maintain good relationship with: local authorities, at political and regulatory level, landowners, tenants and local communities
- Coordination of all the parties involved in the projects (consultants, advisors, local authorities, grid companies, suppliers, etc.) and reporting back to the local managers
- Monitorization of studies
- Project scheduling management through activities definition, sequencing, resources, and duration estimation
- Application for necessary permits
- Submission of offers in the case of public or private tenders
- Support the Construction and Asset management teams during the initial phases of the performance of the services
- With the support of Neoen's teams, manage all administrative aspects related to Neoen's presence in Italy

Candidate profile

The candidate will need the following skills and experience to succeed in this role:

- Master's degree in engineering or architecture, with specialization in renewable energy, environment or project management
- 2 to 5 years of work experience in similar tasks
- Full understanding of the development, construction, and operational processes for solar, wind and battery storage projects in Italy
- Good knowledge of technical software : AUTOCAD, Office, Google Earth
- Not mandatory but highly appreciated, good knowledge of other softwares such as PVSyst, windPRO,
- Solid analytical skills, strong adaptability, efficiency
- Solid communication skills: capability to establish technical discussions in different cultural environments, ability to effectively interact with a wide range of internal and external stakeholders
- Fluent in Italian and English, French will be much appreciated
- Strong motivation to work in a complex environment; you are organized, open-minded and able to work independently; you are capable of working on several projects in parallel
- Integrity, ethical standards and sound judgement
- Leadership and team spirit
- Intellectual curiosity, passion and self-motivation
- Driving license (frequent travelling will be required)
