

Project Manager

About Neoen

Neoen is one of the world's leading independent producers of exclusively renewable energy. Neoen has close to 5.6 GW of solar, wind and storage capacity in operation or under construction in Australia, France, Finland, Mexico, El Salvador, Argentina, Ireland, Sweden, Portugal, Jamaica, Mozambique, and Zambia. The company is also active in Croatia, Canada, Ecuador, and Italy. Neoen's flagship assets include France's most powerful solar farm in Cestas (300 MWp), and two of the world's largest lithium-ion batteries: Hornsdale Power Reserve (150 MW / 193.5 MWh) and the Victorian Big Battery (300 MW / 450 MWh), in Australia.

A player in the fight against global warming and the energy transition, Neoen's mission is to design and implement the means to produce the most competitive renewable electricity, sustainably and on a large scale. As a responsible company whose long-term vision is reflected in a strong and sustainable growth strategy, Neoen is targeting more than 10 GW capacity in operation or under construction by end of 2025.

Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris. For more information: www.neoen.com

In Ireland, Neoen operates eight wind farms, with a combined capacity of 53.4 MW and is commissioning three solar plants, with a combined capacity of 58 MWp, including Millvale and Hortland which were the 1st and 2nd ground mounted solar plants to be connected to the grid in Ireland. In addition, Neoen is developing a large portfolio of solar, onshore wind and battery projects.

Role purpose

Neoen is seeking applications for the role of Project Manager, to be based in our Dublin office. We are looking to strengthen our **Development Department** with several new professionals. This is a broad-ranging and dynamic role and the successful applicant will be responsible to identify new potential wind, solar and energy storage projects and develop the projects successfully from planning and permitting towards construction.

The main tasks include:

- Developing and permitting projects assigned to you. Alternatively, if you are a new starter, you will work side-by-side with our experienced Project Managers growing steadily towards more responsible tasks.
- Project development contains lot of tasks related to land leases, land use processes (EIA, zoning, permitting etc.), financial modeling as well as a high-level technical design related to for example wind turbine generators, grid connections or performance modeling.
- Continuously working with a high number of internal and external stakeholders such as consultants, advisors, authorities and your Neoen colleagues.
- Supporting Neoen's other local teams.
- Bringing energy and innovative ideas to the team

Candidate profile

- Bachelor or Master's degree in engineering, planning or agriculture, with specialisation in renewable energy or environment;
- Proficiency in the use of GIS/AutoCad software is considered an advantage;
- Solid analytical skills, strong adaptability, efficiency;
- Project management skills;
- Strong motivation to work in a complex environment; you are organized, open-minded and able to work independently; you can work on several projects in parallel;
- Social skills, excellent oral and written expression;
- Integrity, ethical standards, and sound judgement;
- Intellectual curiosity, passion and self-motivation;
- Full clean driving licence.

Conditions

- Permanent contract
- Based in Dublin with a lot of travel involved (within Ireland for field work and meetings and occasional travel to other Neoen's offices in Europe and abroad)
- Starting date: as soon as possible

Please send your application to neoen.ireland-CV@neoen.com
