

Procurement Manager (M/F)

About Neoen

Neoen is one of the world's leading independent producers of exclusively renewable energy. Neoen has close to 5.6 GW of solar, wind and storage capacity in operation or under construction in Australia, France, Finland, Mexico, El Salvador, Argentina, Ireland, Sweden, Portugal, Jamaica, Mozambique, and Zambia. The company is also active in Croatia, Canada, Ecuador, and Italy. Neoen's flagship assets include France's most powerful solar farm in Cestas (300 MWp), and two of the world's largest lithium-ion batteries: Hornsdale Power Reserve (150 MW / 193.5 MWh) and the Victorian Big Battery (300 MW / 450 MWh), in Australia.

A player in the fight against global warming and the energy transition, Neoen's mission is to design and implement the means to produce the most competitive renewable electricity, sustainably and on a large scale. As a responsible company whose long-term vision is reflected in a strong and sustainable growth strategy, Neoen is targeting more than 10 GW capacity in operation or under construction by end of 2025.

Neoen (ISIN Code: FR0011675362, ticker: NEOEN) is listed in Compartment A of the regulated market of Euronext Paris. For more information: www.neoen.com

Role purpose

Our **Procurement Department** is looking for a **Procurement Manager** for our office in **Paris, France**. The Procurement Manager will be managed by the European Area Procurement Manager and will focus on the **European Area**.

The main responsibilities of this position are the following :

- Upstream – Support to the Development Department team members :
 - Define the right technology for the projects ;
 - Find the right price, and deliveries in line with project(s) expected time-schedule ;
 - Define the key T&Cs from EPCs & strategic suppliers that are to be considered by the Development Department team when negotiating the PPA(s) ;
 - Prepare and present market soundings on the different key players from an industrial point of view (who are the main EPCs, WTG suppliers, BESS suppliers and PV Modules suppliers that have been involved in the past projects for such geography etc.).
- Downstream – Lead the negotiations with all EPCs and strategic suppliers once a project has been granted to the Development Department :
 - Prepare and elaborate the documents for the release of the RFP ;
 - Lead all negotiations with EPCs and strategic suppliers ;
 - Prepare, negotiate, recommend to the management, award and follow up to the release of the instruction to proceed of all contracts (Framework agreement, EPC full turnkey, Module Supply Agreements, TSIA, O&M Agreements, Maintenance & Availability Agreements).
- Additional responsibilities :
 - Do the regular market intelligence to have precise knowledge of the market trends on all renewable technologies ;
 - Prepare and perform site visits of the factories of strategic suppliers ;
 - Prepare and perform audits of the strategic suppliers (360°, financial audits, ESG, quality, E&HS).

Candidate profile

The candidate will need the following skills and experience to succeed in this role:

- 8 to 10 years experience in management of EPC and/or O&M contracts (in civil works, oil & gas, industry, power supply etc.). Experience in the renewable industry is a plus
- Solid experience in the development and the asset management of long term projects
- Strong knowledge of EPC and O&M Contracts (Fidic silver)
- Solid background in project finance is a plus
- Fluent in English and French (Spanish is a plus)
